

NETZERO E^{one}

NETZEROTM

FIRE

MAKING FIRE ELECTRIC

The NetZero E-one gives you a unique sensory experience, unlike any electric fireplace you've seen before. You'll be drawn in by the oh-so-real holographic flames that dance on the sculpted logs. It captures the appearance and mood of a real wood fire behind a large glass front that makes it feel like a true hearth.

Its sustainable design is at home whether you live in a country farmhouse, a cozy craftsman or a condo on the 15th floor. The E-one entices families to gather and turn moments into memories.

Take a moment to take it all in—because **seeing is believing.**

E-one 130B

NEXT-LEVEL REALISM YOU
HAVE TO SEE TO BELIEVE

E-one 100F

SUSTAINABLE
AND BEAUTIFUL

LESS IMPACT ZERO COMPROMISE

Enjoy the stunning beauty of fire with the sustainable benefits of zero emissions, zero fossil fuels and low energy consumption. Now you can make a big impact in your home environment—with less impact on the one we all share.

The E-one is available in three sizes/styles. The 100F and 130F feature front glass viewing, while the 130B is a bay style with three-side viewing. For specs, see the back cover.

Whichever one you choose the go-anywhere design of the NetZero E-one simplifies installation, without the need for venting or gas lines. Bring the wonder of fire to almost any space. And feel good about doing it.

E-one 100F

IGNITE YOUR SENSES

Own the moment and match your mood with an array of adjustable settings.

Customize the flame height and tone, the intensity of the glowing embers, interior lighting and the realistic crackling sounds of burning wood. All with our intuitive remote that makes the NetZero E-one “on-off” easy.

You can even add a little warmth on a chilly evening with the Atmos Heating system or just enjoy watching the dancing flames in warmer months with the touch of a button.

CREATE YOUR UNIQUE FIREPLACE EXPERIENCE

Enjoy the calm of lower flames on a quiet evening at home.

Bring energy to the room with flames on the highest setting.

E-one 100F

PRACTICALLY NO MAINTENANCE

The NetZero E-one is so low maintenance it's practically no maintenance. There's nothing to refill and nothing to upkeep, besides the occasional dusting and glass cleaning.

The NetZero Fire™ and Kalfire Story

E-one is powered by a partnership between NetZero Fire™ and Netherlands-based Kalfire to bring their patented flame technology to North America. It's a relationship built around a shared passion for creating hearth experiences that bring families together, through fireplace designs that are both beautiful and sustainable. Together, these two family-owned companies ensure the timeless appeal of fire will be enjoyed by generations to come.
